

DPS Internal Competition Rules 2016-2017

Monthly qualifying competitions and our end of year competition are held in the club and these rules do not relate to any competition outside the club. Members should always familiarize themselves with whatever current rules apply to any competition they enter and be aware that rules are modified from time to time.

Definitions:

Category: *Non-Advanced, Intermediate, Senior*

Section: *Monochrome, Colour, Overall (combined Colour and Monochrome)*

Image: *A scene presented on a print or on a monitor or via a projector.*

Monochrome Image:

A black and white work, fitting from the very dark grey (black) to the very clear grey (white), is termed a monochrome work. A black and white work, toned entirely in a single colour, is considered a monochrome work able to qualify in the monochrome section but not for the colour section.

A black and white work modified by partial or split toning or by the addition of at least one colour becomes a colour work able to qualify in the colour section but not in the monochrome section.

Similar Images:

“Similar Images” are defined as a combination of subject, subject matter, treatment and general structure of two or more images that are “essentially the same” to the extent that images are substantially alike. This could apply to images that are sequential or the same subject taken from a slightly different angle.

A photographer is considered non-advanced if they do not fulfill the criteria for the Intermediate section.

46. Any member that disagrees with any ruling of the committee may raise their issue at the annual general meeting.
